

POLAND-INDIA UNDERGROUND MINING SEMINAR

This exclusive session will reveal how the world-renowned precision and innovation of Polish mining engineering are joining forces with India's industrial powerhouse to create a new strategic platform for underground mining projects.

Come and discover upcoming collaboration opportunities, cutting-edge Polish technologies for deep mining, and the joint vision for developing next-generation mines in India.

Join key industry leaders, government representatives, and decision-makers shaping the future of Polish–Indian cooperation in mining.

The Polish-Indian Mining Seminar will showcase an unprecedented partnership between the InfraDeep Polish Mining Consortium and UMPEL / TATA Voltas - part of India's prestigious TATA Group. The Consortium comprises of major players from Poland in this area, these include LW Bogdanka S.A., Węgłokoks S.A., Patentus S.A., and P.P.H.U. MARTECH-PLUS Marcin Mistarz Sp. J, Powen Wafapomp S.A.

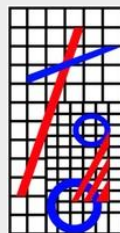

Don't miss this landmark event at IME 2025 - where Team Poland meets Team India to build the mines of tomorrow!
